

ENVIRONMENTAL POLICY

Parker Chomerics recognises and believes in the importance of safeguarding natural resources and the global environment. We are committed to our employees, our communities and our customers and their understanding of the need for environmental stewardship. We are committed to the concept of continuous improvement in environmental performance. In accordance with BS EN ISO 14001 we are committed to the following principles:

- We will comply with all direct and indirect environmental legislation on a worldwide basis and in the EU specifically.
- All operations will reuse material where possible, recycle all materials viable and aim to minimise waste that would go to land-fill.
- We will operate with pollution prevention in all processes.
- We will monitor environmental impact by emissions and energy use compliance with environmental regulations.
- We will strive to conserve and minimise the use of natural resources.
- We will train employees to understand and comply with environmental requirements.
- We will respond to the environmental concerns of our stake holders, employees and the community in which we operate.
- We will implement written procedures and management reviews in order to carry out of these principles.
